

BiteMD[®]

External Analgesic
First Aid Antiseptic

from the makers of
Cutter
BRAND

BiteMD, when applied soon after an insect bite, begins to work immediately to counteract the effects of bites and stings from bees, wasps, mosquitoes, ticks, hornets, ants, fire ants, deerflies, chiggers, sand fleas and horseflies.

DRUG FACTS

Active Ingredients:

Benzocaine 5%	Purpose: Analgesic, Anesthetic, Antipruritic
Camphor 3%	Topical Analgesic
Phenol 1.35%	First Aid Antiseptic

Uses: First aid for temporary relief of: ■ Pain ■ Itching ■ Infection

Warnings:

For external use only

■ Do not get in eyes.

When using this product

- Do not apply over large areas of the body or bandage.
- In case of deep or puncture wounds, animal bites or serious burns, consult a doctor.

Stop use and ask doctor if condition worsens; or if symptoms persist for more than 7 days, clear up and occur again within a few days. Do not use longer than one week unless directed by doctor.

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away. If in eyes, flush with water for 15 minutes and call a physician.

Directions

- Clean area.
- Apply to the bite area by pressing straight down repeatedly until liquid flows, then dab sparingly.
- If itching persists, apply again in 10 to 15 minutes.
- For ticks and bees, remove tick or stinger before treatment.

Other information

- Store at room temperature.

Adult and children 2 years and over

Apply to affected area 1 to 3 times daily

Children under 2 years

Consult a doctor

Inactive Ingredients

Propylene Glycol
